

PDPM Component Variable Per-Diem and RUG-IV Rate Reference Tables

- Please refer to the tables below when determining the Total PDPM Federal Urban and Rural Per-Diem Payment Rate(s) at Different Points of Stay located on the last page of the “AHCA PDPM Resident Classification Worksheets”.
- To account for changes in resource PT, OT, and NTA utilization over the course of a SNF stay, PDPM utilizes a variable per-diem adjustment factor that adjusts the per-diem payment for these components over the course of the resident stay.
- NTA component receives 300% of the base per-diem rate for days 1-3 of a stay.
 - Beginning day 4 through the remainder of the stay the NTA component receives 100% of the base per-diem rate.
- PT and OT Components receive 100% of base per-diem rate for days 1-20 of a stay.
 - After day 20, the base rate for PT and OT are reduced by 2% every seven days
- The PDPM payment model does not adjust the per-diem payment rates for the SLP or Nursing components.
- The FY 2019 RUG-IV rate table at the end will allow you to compare relative differences between the resident’s PDPM per-diem rates identified in the “AHCA PDPM Resident Classification Worksheet” with the Federal RUG-IV rate.
 - NOTE: These tables do not contain geographic adjustments, so you should use this RUG-IV rate reference table and not your facility RUG-IV rate for this comparison.

PDPM NTA Variable Per-Diem Payment Rate Table
